User guide

PRESTASHOP THEMES

Developed by the PrestaShop team, the Lifestyle, Minimal and Shopping themes are entirely responsive and include a customizable design based on current e-commerce trends. They are ideal for your PrestaShop 1.7 store and are fully compatible with all modules developed by our team.
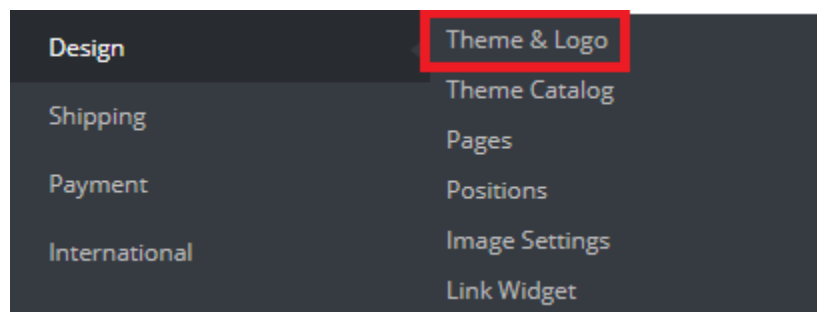

Find below all the information you need to understand and use these themes.

Contents:

1. *Installing a theme in your store*
2. *Configuring the Theme Configurator module*
3. *Configuration the Homepage Slider module*

1. INSTALLING A THEME IN YOUR STORE

To install a theme in your store, first of all, we invite you to connect to your back office. Then click on the Design tab in your left menu, then choose Theme & Logo.
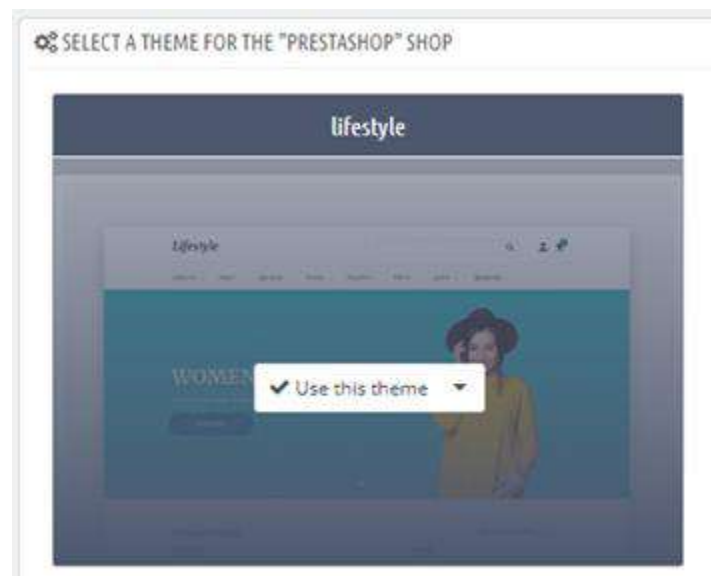

On the new interface, click Add a theme at the top right of your screen.

You will be able to add the zip of the theme you purchased directly from your computer, then save your choice to import the theme into your shop.

You will be redirected to the interface of the Theme & Logo tab. The theme you've imported is in the section called Select a theme for the shop, all you need to do now is clicking on the Use this theme button to complete the installation.

Note: *Please make sure that you have downloaded and installed the correct version of the theme on your store. Some versions of the theme are compatible with stores with 1.7.1.x versions of PrestaShop, while others are compatible only from version 1.7.2.x.*

2. CONFIGURING THE THEME CONFIGURATOR MODULE

The Theme configurator module, integrated into our PrestaShop themes, allows you to customize the colors and display of your installed theme.

To find it, in the list of modules installed on your shop, please enter the keyword "configurator" in the search bar.

- In the configuration of this module, you will have the possibility to change the main color of your theme. This color will be used for buttons, links, texts... on your site.

Main color   #251b5b

Buttons, links, some texts, etc.

NEW   -20%

HUMMINGBIRD PRINTED T-   €22.94 €28.68
SHIRT

Regular fit, round neckline, shor...

- Then you can choose the style of the buttons: do you want to transform the buttons on your site into ghost buttons (buttons with a transparent background) or radius buttons (rounded buttons)?

Ghost buttons   YES   NO

Radius buttons   YES   NO

🛒 ADD TO CART

Example of a button with the Ghost and Radius options enabled

- Do you want to change the color of the category text block, if so, please choose No for the Default text color field, then select a color of your choice.

Default text color   YES   NO

Custom category text color   #00a399

- If you want to use the native slider of PrestaShop, you can customize the colors of the different elements of the slider. In case you want to use the Homepage slider module built into the theme, you can skip this part and continue the configuration.

- For the last step, you will be able to customize the font of the texts displayed on your shop, including the primary and secondary font. The primary font applies to titles and important information from your store (reinsurance items, button texts, etc.) and the secondary font is reserved for the rest of the text.

3. CONFIGURING THE HOMEPAGE SLIDER MODULE

Concerning the Homepage Slider module, it allows you to customize and display a full screen and responsive slider on your shop.

- **_Step 1: Configuration tab_**

In this tab, you can customize your homepage slider for a better adaptation to your online store.

First of all, start with the general settings of your slider:

- Would you like to display the slider in standard size or full screen?

- Next, define the height of the slider: for a better display, we recommend you to choose a height between 500 and 700px.

Slider height | 500 | px

- You will also have the possibility to choose the visual scrolling type, 3 options are available: arrows, dots or both. The color of these scrolling elements is entirely customizable according to your preferences.

Visual scrolling type | **Both** | Arrows | Dots

Scrolling elements color | #000000

Next step, configure the advanced settings of your slider:

- You can choose the scrolling speed of your slider: it is recommended that you choose a value between 4000 and 7000 milliseconds.

Scrolling speed | 4000 | milliseconds

- Do you want to activate the pause on hover?

Pause on hover | **YES** | NO

- Would you like a loop forever for your slider?

Loop forever | YES | **NO**

- **_Step 2:_** _Slider manager tab_

The parameters of the slider have been configured, in this tab, you will be able to upload your images and configure them as you desire:

- Start by adding images for your slider and give them a title. It is mandatory in this module to add the image and its name in all the languages your store offers.

Upload an image | | Choose a file | en ▾

Image title | Title | en ▾

- Then you can add a text on your slide, we give you the total freedom for the layout of this part (add titles, subtitles, insert hyperlinks, etc.).

Add your text | **B** *I* U ... " ... ≡ ▼ ≡ ▼ Paragraph ▼ | en ▼

- For a better adaptation of this text part to the selected image, choose in this step the position of the text on the slide.

Text horizontal position | Top ▼ | en ▼

Text vertical position | Left ▼ | en ▼

- Would you like to add a content background to make your text stand out even more?

Enable content background | **YES** | NO

- You will be able to make the slide clickable by adding a redirect link to a page of your choice. Simply enter the URL you chose in the field, make sure you fill in this field in all languages if you want to redirect your visitors to a different page for each language.

Redirect URL | | en ▼

Example : http://... , https://

- You can also add a Call to action button to your slide to capture the attention of your visitors: clicking on this button will redirect the client to a new tab. For the button, you can customize the button text, as well as the text color and the background color..

Add a call to action | **YES** | NO

Add your button text | Click here | en ▼

Text color | #ffffff | 🌈

Background color | #5f0066 | 🌈

At the end of the Slider manager tab, you can activate the slide you have added with only one click.

All the slides will be displayed on this tab, you can change their status, edit or delete them. The drag and drop design will also allow you to change the order of the slides displayed on your homepage.

The entire PrestaShop Team thanks you for your trust and wishes you every success with the themes developed by our team!

The themes mentioned in this document were developed by the PrestaShop Team, which guarantees its complete compatibility with the PrestaShop e-commerce software.
